## How to use the EpiPen<sup>®</sup> Auto-Injector

---

1. Remove blue safety cap.

2. Hold auto-injector firmly with orange tip facing down.

3. Jab orange tip firmly into mid-outer thigh until you hear a 'click'.

4. Hold in place for several seconds then pull out.

### Built-in needle protection:

When the auto-injector is removed, the orange needle cover automatically protects the used needle.
